
Professional Summary:

- Certified **UiPath** and **Automation anywhere developer** having around **5 years** of experience on RPA tools like **UiPath, C#** and **Automation Anywhere**.
- Worked closely with Process BA to prepare Process Definition Document (**PDD**) & Solution Design Document (**SDD**) and work with **Bots** in production.
- Knowledge of all phases of Software Development Lifecycle (**SDLC**) and Strong understanding of various **SDLC** process like **Waterfall, Agile** Models.
- Involved in end-to-end **RPA** development such as **Requirement gathering, feasibility check POC, Design, POV, Development, Testing, deployment**.
- Strong capacity for **logical thinking** and **analytical skills** with the ability to understand complex applications.
- Experience using **Task Bots** in **Automation anywhere**.
- Experience in the **task recording, editing, scheduling** and **distribution** using **automation Anywhere**.
- Created end-to-end automation solutions for clients as per requirements which involves requirement gathering, feasibility check, development, testing, deployment, and maintenance.
- Worked on **Citrix** and **Image automation**.
- Business applications on which **RPA** was implemented include **SAP, outlook, word, pdf, web-based applications, desktop, Excel** in **UiPath**.
- Worked on **OCR, image automation, Regex** etc.
- Experience in using **UiPath Orchestrator** for maintaining, securing, and retrieving the user credentials.
- Strong user interface development experience using **JavaScript, ASP.net framework**
- Worked on **UiPath work queues** to manage **Bot** workloads.
- Worked on various Web applications, Excel applications, Email activities, PDF extraction, OCR extraction in **Uipath**.
- Knowledge on **automation scripts** like **VBA**.
- Knowledge on **Orchestrator, SOAP, REST API, JAVA**
- Experience in managing teams.
- Good knowledge on **HTML, CSS, Java Script, JQUERY, VB.NET, ASP.NET** .
- Experience in **Bug Fixing** and **Code review** to meet coding standards.
- Strong knowledge on writing **Functions** and **stored procedures** in **SQL** database.
- Experience in working with various clients to automate their day-to-day IT processes.
- Quick learner and excellent team player, ability to meet tight deadlines and work under pressure and strengthened in adaptability, analytical and problem-solving skill.

Technical Skills:

- RPA tools: **UiPath**, Automation anywhere, C# Automation
- Programming Languages: RPA, SQL, HTML, CSS, JavaScript, .net, c#, VB.net, Python, VB script.
- Technologies worked: .Net, Microsoft server management studio, citrix, SAP, MS office, REFramework.

Work Experience:

1. Atos. Ltd., Chennai, India

Client: United Parcel Service

Role: Consultant (UiPath)

Roles and Responsibilities:

- Provided end to end solution for the process in RE-Framework.
- Well-versed with the UI Path platforms UI Path Studio, UI Path Robot, UI Path Orchestrator
- Used UI Path Orchestrator for Deployment, Monitoring and Management of UI Path Robots.
- Worked on Sequences, Flowcharts and State Machines based on the requirement.
- Worked on different Recordings, Web Scrapping, Data Scrapping and User Events.
- Implemented different logics using If, Parallel If, While, Do-While, Switch Case.
- Used Data Tables to make the process more dynamic and error free.
- Hands on experience in handling errors by using UiPath Activities like Try-Catch, Throw, rethrow and Retry scope.
- Worked on workbooks activities like Append Range, Get Table Range, Read Cell, Read Cell Formula, Read Range, Read Column, Read Row, Write Cell, Write Range using UiPath studio
- Provided Exception handling at every possible scenario for a robust error-free development
- Used Outlook, SMTP and Exchange to send emails.
- Monitored and analyzed the issues through Debugging.
- Implemented automation of various processes like extracting data from CSV, Excel files, invoice processing, order processing, service desk automation etc. with the help of UiPath.
- Experience in using Windows Credential Manager for maintaining, securing, and retrieving the user credentials.
- Used Logging mechanism to find out the errors or exceptions.
- Involved in code review and fine tuning the code for performance related issues

Environment: UiPath Studio, C# .NET, TFS, HTML, XML, CSS, SQL Server, Visual Studio.

2. Wipro. Ltd., Bangalore, India

Client: Honda

Role: Sr. RPA Developer (UiPath)

Roles and Responsibilities:

- Responsible for implementing the full life cycle of RPA solutions: Identifying automation opportunities, gathered requirements, implement, test and deploy targeted automation solutions using industry leading RPA
- Delivered demos, technical trainings and support for new/existing clients.
- Very good Experience in RPA tool installation and infrastructure test.
- Worked on creating PDD and SDD.
- Responsible for development in UI Path and unit testing.
- Responsible for developing test strategy and test cases for testing of RPA solutions.
- Involved in setting up Uipath environment in client machine.
- Responsible for deployment bot.
- Exposure to bug fixing in development and production environments.
- Mentoring colleagues through the RPA Training and guidance on best practice and development techniques.
- Training resources in Automation Testing and Robotic Process Automation

Tools and Technologies: UiPath, REFramework, Citrix, Ticketing tool, Windows credential manager, Email Automation, Citrix Automation, OCR, Excel, MS office, .Net, C#, Web applications, Windows Applications, HTML CSS.

Infosys. Ltd., Bangalore, India

1. Client: Citi Bank

Role: Sr. Software Developer - RPA

Roles and Responsibilities:

- Involved in End-to-End development of Business Process using Robotic Process Automation.
- Involved in feasibility analysis.
- Involved in creating SDD and PDD.
- Responsible for creating development standards.
- Involved in creating POC's using **Automation Anywhere** and **UI Path** for tool comparison.
- Implemented **selectors** for interacting with **window** and **web browsers** for continuous navigation of applications.
- Used **Screen Scraping** method to **extract text** from **running window** application by appropriate output methods such as **native**, **Full text** and **OCR**.
- Responsible for **Data Scraping** method for **extracting structured** data from **browser applications** or documents into a **CSV file** or Excel Spread sheet.
- Responsible **Excel automation** for repetitive **Excel data entry**, appending and for comparing columns.
- Responsible for **email and image automation**.
- Handled **exceptions** using **Try-Catch** activity.
- Responsible for scheduling **UiPath Robot** using **task scheduler** in Window.
- Responsible for **Execution** of project in **UiPath Robot**.

Tools and Technologies: AA, .Net, SQL, OCR, Image automation, Automation anywhere, Email automation, SQL Server 2012, Visual Studio 2015, Web applications, MS office, Windows credential manager, Orchestrator, REFramework, Data scraping, web automation, Citrix, VPN, VB script, Regex, VB.Net, SOAP, REST.

2.Client: Select Portfolio Services

Role: Software developer - RPA

Roles and Responsibilities:

- Involved in Requirement analysis and feasibility check.
- Involved in developing POC using UiPath and .Net (C#).
- Involved in creating PDD and SDD.
- Involved in RPA infrastructure test and setup.
- Involved in development.
- Involved in exception handling.
- Responsible for email, excel and citrix automation.
- Involved in data scraping using OCR and web automation.
- Involved in deployment and UAT testing.

Tools and Technologies: C# automation, Citrix, VPN, Microsoft server management studio, C#, SQL Server, windows, Excel, Agile Scrum, HTML, CSS, jQuery, Bootstrap, Visual Studio 2015, Jira, JavaScript, VBScript, Python, C#.NET, ASP.NET, ADO.NET, VB.NET, MS office, Visual Studio 2015, Web applications, Windows Applications, MS office reader

Certifications and awards:

- Certified with **UiPath Advanced RPA Developer**.
- Certified with UiPath Developer Foundation.
- Certified with Automation anywhere Training.
- Certified with **Automation anywhere Advanced RPA Professional**.
- Won several recognitions (Manager's Choice award with Spot award) while in Infosys for impact in different projects.

Educational Qualifications:

Bachelor's in Mechanical Engineering from Thiagarajar College of Engineering from Jul 2013-May 2016.
